

# HIDING FROM THE INTERNET

## ELIMINATING PERSONAL ONLINE INFORMATION

### FOURTH EDITION

## PERSONAL DATA REMOVAL WORKBOOK & CREDIT FREEZE GUIDE

VERSION 1.12: UPDATED: APRIL 2019

Entire book available at: <https://inteltechniques.com/book2.html>

#### Chapters:

- 1 Self Pre-Assessment
- 2 Self Background Check
- 3 Preparation
- 4 Online Protection
- 5 Credit Companies
- 6 Anonymous Purchases
- 7 Anonymous Telephones
- 8 Personal Data Removal
- 9 Social Networks
- 10 Web Publishing
- 11 Government Records
- 12 Disinformation
- 13 Aliases
- 14 Future Habits
- 15 Major Life Changes
- 16 The Home Firewall
- 17 Data Leakage Response

This updated workbook is the result of an amazing handful of people on the IntelTechniques Forum that constantly locate new opt-out information. I won't call you all out by name, but you know who you are.

## PART ONE: CREDIT FREEZE

Over the past ten years, I have conducted numerous presentations about digital crime to global audiences. The one question that I am asked more than any other during these events is:

“Should I purchase an identity protection service?”

While this is a personal decision, I always disclose that I do not subscribe to any of these services. I have had a credit freeze for several years, and do not require expensive identity protection. I believe that those who have a credit freeze in place should not worry about their identity being stolen. Further, I think that a credit freeze is better than the best identity monitoring product that will ever exist.

This document includes an update to the section from my book *Personal Digital Security* that discusses credit freezes. I believe that every U.S. citizen should consider one. I hope that you find value in this tutorial. If you do, please consider forwarding a copy of this file to someone that could benefit. If you were given this document, please consider joining my free monthly email newsletter at [ComputerCrimeInfo.com](http://ComputerCrimeInfo.com)

## PROTECTING YOUR CREDIT ACCOUNTS & DEBIT CARDS

If a criminal wants to get your money quickly and easily, he or she will target your debit and credit cards. Before the popularity of the internet, this required physical access to your wallet or purse. A victim would know right away that a card should be cancelled and the damage would be minimal if caught early. A criminal would risk capture by attempting charges on the cards in person. Today, possession of your cards is not necessary. The internet has created a new avenue to obtain and spend the money in your accounts. This may occur without any indication of problems on your end. This chapter will present the tools that you need to protect your credit and make you practically invulnerable to identity theft.

## FREE CREDIT REPORT

Before I discuss the techniques that will protect you, you should take a good look at your current credit report. This will identify all of your current open accounts and may identify any problems or fraudulent activity. There are several websites that offer a free credit report. Most of these will try to convince you to sign up for premium offers and never offer an actual free credit report. The only official government supported and truly free credit report website is at [annualcreditreport.com](http://annualcreditreport.com). This website allows you to view your credit report, without any fee, once yearly from each of the three credit bureaus. This means that you actually can get three free credit reports every year. Instead of viewing all three reports at the same time, create a schedule to spread out the viewings. I recommend the following.

First, I recommend obtaining your entire credit report from Equifax at <https://www.annualcreditreport.com>. This free report should be used to identify any unknown uses of your identity. If you do not want to submit the request online, you can use the form at <https://www.annualcreditreport.com/manualRequestForm.action> to mail in the submission.

I recommend that you consider closing any unused open credit accounts. The only exception would be whichever account has been opened the longest. If you have an unused account that has been open for ten years without any problems, you may consider leaving that account open. This will help your credit score, whereas closing your oldest account could decrease your score. Closing other unused accounts will provide fewer options for fraud. If you possess a credit line with a local bank that is never used, and that bank experiences an intrusion into their system, you may be victimized for weeks without knowing. The fewer open accounts that you have will result in fewer opportunities for financial fraud. Personally, my priority would be to close any specialty store accounts that you may have opened because of a sales discount, a free promotional item, or a pushy sales person.

Analyze your entire credit report for any errors. Occasional typos are common, and should not create panic. When I first viewed my own report, I discovered that someone else was using my social security number. I was immediately concerned and began to contact the credit bureaus. I quickly discovered that the “suspect” was someone with a SSN almost identical to mine, and someone had mistyped a number at some point. This will happen, and it is not an indication of fraud. You

should focus on the open accounts. If you see that you possess a line of credit at a bank that you have never heard of, then you should be concerned. If you discover anything suspicious, contact the credit bureau that reported the potential fraud. They all have a fraud division that will assist with identifying the problem and resolving it. Each situation will be unique and one vague example here would not necessarily apply to you. You should also contact any financial institution that hosts the fraudulent account and notify them of the issue. You will be mailed paperwork to validate that the account was not opened by you. The process of closing the account will move quickly after that. If you do discover fraud on your credit report, I recommend that you immediately request your report from the other two credit bureaus. This may identify additional fraud that was not listed on the first bureau's report. If you do not discover fraud, I suggest that you wait a few months before you view the next report. This allows you to continuously monitor your credit throughout the year. Keeping an eye on your credit report is one of the most important tips that I mention in my public speaking appearances.

## CREDIT OPT-OUT

Under the Fair Credit Reporting Act (FCRA), the consumer credit reporting companies are permitted to include your name on lists used by creditors or insurers to make firm offers of credit or insurance that are not initiated by you. These are the pre-approved credit and insurance offers that you receive in the mail. They are often physically stolen by street criminals and submitted to receive a credit card in your name at their address. The FCRA also provides you the right to opt-out, which prevents consumer credit reporting companies from providing your credit file information to businesses.

Through the website [optoutprescreen.com](http://optoutprescreen.com), you may request to opt-out from receiving such offers for five years. If you want to opt-out permanently, you can print a form that you must send through postal mail. If you choose to opt-out, you will no longer be included in offer lists provided by consumer credit reporting companies. The process is easy.

## CREDIT FREEZE

During my training sessions, people often ask about paid services such as Lifelock and Identity Guard. They want to know how effective they are at protecting a person's identity. These services can be very effective, but you pay quite a premium for that protection. A more effective solution is a credit freeze. This service is easy, free, and reversible. A credit freeze, also known as a credit report freeze, credit report lock down, credit lock down, credit lock, or a security freeze, allows an individual to control how a U.S. consumer reporting agency is able to sell his or her data. This applies to the three big credit bureaus (Equifax, Experian, and TransUnion). The credit freeze locks the data at the consumer reporting agency until an individual gives permission for the release of the data.

Basically, if your information stored by the three credit reporting bureaus is not available, no institution will allow the creation of a new account with your identity. This means no credit cards, bank accounts, or loans will be approved. In many cases if someone tries to use your identity but cannot open any new services, they will find someone else to exploit. We can think of no better motivation to freeze your credit than knowing that no one can open new lines of credit in your name. This does NOT affect your current accounts or credit score.

A credit freeze also provides a great layer of privacy protection. If companies cannot gain access to your credit report, they cannot identify you as a pre-approved credit recipient. This will eliminate many offers mailed to your home. This will also remove you from various databases identifying you as a good credit card candidate. Credit freezes are extremely easy today thanks to State laws that mandate the credit bureaus cooperation. This section will walk you through the process.

Now that credit reports are free due to a new federal law (<https://www.congress.gov/bill/115th-congress/senate-bill/2155>), I feel it is time to execute credit freezes in all possible locations.

First, submit a credit freeze at the "big three" credit bureaus via their online submission options, telephone, or postal mail at the following resources.

#### Equifax

Online: <https://www.freeze.equifax.com>

By phone: 800-685-1111

By Mail: Equifax Security Freeze

P.O. Box 105788

Atlanta, Georgia 30348-5788

#### Experian

Online: <https://www.experian.com/freeze/center.html>

By phone: 888-397-3742

By Mail: Experian Security Freeze

P.O. Box 9554, Allen, TX 75013

#### TransUnion

Online: [https://service.transunion.com/dss/orderStep1\\_form.page](https://service.transunion.com/dss/orderStep1_form.page)

By Phone: 888-909-8872

By Mail: TransUnion LLC

P.O. Box 2000 Chester, PA 19016

Be sure to properly store the PIN provided to you (usually sent via mail). You will need this to un-freeze your credit if desired. Next, submit a freeze request to the “small three” credit bureaus at the following resources.

#### Innovis

Online: <https://www.innovis.com/personal/securityFreeze>

By Phone: 800-540-2505

By Mail: Innovis Consumer Assistance

PO Box 26, Pittsburgh, PA, 15230-0026

<https://www.innovis.com/assets/InnovisSecurityFreezeRequest-110141767716e41ac7d862e221ac5831.pdf>

#### Chex

Online: <https://www.chexsystems.com/web/chexsystems/consumerdebit/page/securityfreeze/placefreeze/>

By Phone: 800-887-7652

By Mail: Chex Systems, Inc. Attn: Security Freeze Department

7805 Hudson Road, Suite 100, Woodbury, MN 55125

#### NCTUE

Online: <https://www.nctue.com/Consumers>

By Phone: 866-349-5355

By Mail: NCTUE Security Freeze

P.O. Box 105561, Atlanta, GA 30348

After you have received confirmation that the six credit bureaus have placed a freeze on your credit, navigate back to <https://www.annualcreditreport.com> and request your free credit report from Experian. This report should acknowledge that a freeze is successfully in place. In a few months, repeat the process for Transunion. You are allowed one free report from each of the three providers every year.

I cannot stress the importance of a credit freeze enough. Anyone with a SSN should submit one right away. The new federal law also mandates that any child with a SSN under the age of 16 can also have a free credit freeze. I highly recommend locking down the entire family.

## PERSONAL DATA REMOVAL

The removal process of your information is usually easy, with a few exceptions. Most services will offer you a website to request they remove your details. These direct links are often hidden within fine print or rarely visited pages. My goal in this workbook is to take the research out of the removal process and simply tell you where to start. Instead of explaining each step of the process for every service, I decided to compress this information throughout this workbook. Each removal summary will display several pieces of information about each service that I have identified. The following structure outlines the data that is displayed throughout this chapter. The final line will have blank forms for you to document your work and successful removals.

**Service:** The name of the service

**Category:** The type of website

**Website:** The website of the service

**Removal Link:** The direct link for online removal, if available

**Privacy Policy:** Page containing detailed instructions

**Email Address:** Any email addresses that will reach an employee responsible for removal

**Requirements:** Any special requirements, such as a copy of an ID or written request

**Notes:** Any special instructions

**Date:** (date of request)    **Response:** (response received)    **Verified:** (confirm removal)

The “Date” field should list the date that you submitted the removal request. The “Response” should include any details received from the service after your submission. The “Verified” option should be used to “check-off” that service after you have confirmed that your details have been removed. All resources are listed in alphabetical order for easy reference.

The data supplied in the email address field could be used for unsuccessful removal attempts. If the official removal process for that service does not meet your needs, I recommend sending an email to the company. I have tried to locate email addresses of employees that appear to be responsible for removal requests. I suggest the following message be sent from the anonymous email address that you created earlier.

I have been unsuccessful in removing my personal information from your website. Per the information provided from your legal privacy policy, please remove the following details from your service.

Full Name (As appears on their service)

Physical Address (As appears on their service)

Telephone Number (ONLY if it appears on their service)

Email Address (ONLY if it appears on their service)

### THE “MOST BANG FOR YOUR BUCK” REMOVALS:

Spokeo, Mylife, Radaris, Whitepages, Intelius, BeenVerified, Acxiom, Infotracer, Lexis Nexis, TruePeopleSearch

These will trickle down to many of the smaller sites mentioned on the following pages. I recommend that people start with these first, wait about one week, and then start to tackle the remaining sites.

Helpful note from forum user “Ringo”: When they ask for a photo ID, just upload something random, they usually don’t even look at the picture.
